

## Tote Bin Weighing Platform

### Tote Bin Weighing Platform for 200 Litre Tote Bins BWP/300/B

#### Tote Bin Weighing Platform Description

This tote bin weighing platform is designed such that the tote bin is wheeled up a 25mm ramp and onto the lifting platform for weighing. The tote bin weighing platform can either be used to check a bins weight or to fill the bin accurately when it is on the platform. The tote bin weighing platform is constructed from Grade 304 stainless steel, is fully TIG welded throughout and is designed to be bolted to the floor. The tote bin weighing platform is fitted with three 500 Kgs Load Cells and a Ian Fellows Lucid display unit. All of the electrical equipment is mounted in enclosures rated to IP65.
